What is Aqua Sunny?

- A Novel Aesthetic & Anti-aging Injection system
- Multi-Needle & Various Solution & Vacuum Injection System
- The Most Efficient & Effective Injection Treatment

AquaSunny

Why Aqua Sunny?

Easy& Safe

Vacuum: Holds the skin for easier injection, assists safe injections for danger zones such as around the neck and the eyes

Efficient & Effective

9 pins helps equal (balanced) injection and saves treatment time

Accurate

Injector: Helps the adjustment of exact injection amounts and needle depth

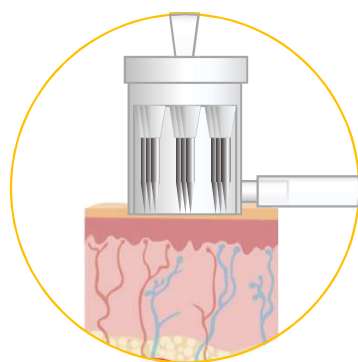

Specification

Injection Mode	Continuous/Single
Suction Level	Low, Middle, High
Syringe	2,3,5cc
Needle	9Pin, 32Gauge

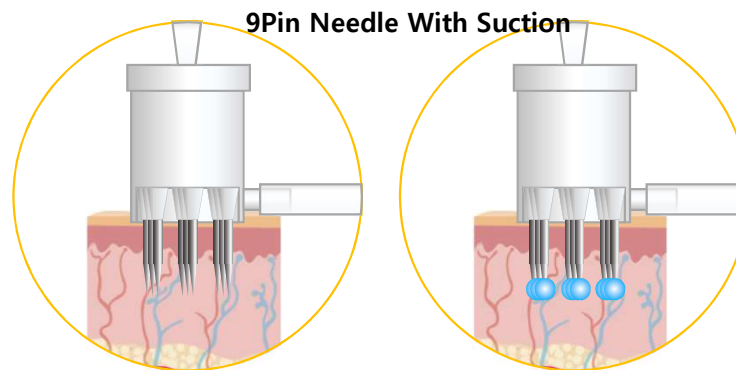

Mechanism of Aqua Sunny

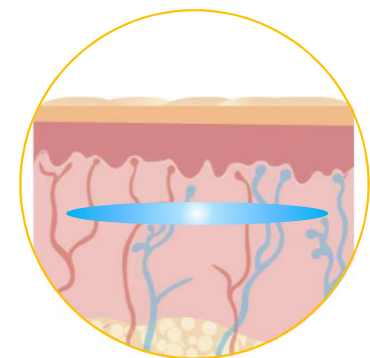

Step1

Contact to skin
Vacuum applies gentle pressure on the skin and holds it to help easier injection

Step2

**Operation
(Needle insertion + Injection)**
The medicine is evenly injected into the right layer by injector and multi needle

Step3

End
The medicine injected is spread out and the Vacuum gently releases the skin

Features *"Works together to enable synergy"*

- **Injects equal amounts of solution into targeted depth (0~3mm)**
 - Uniformly distributed
- **Fast treatment time by 9 pins**
 - Less time & efforts required
- **Maximize patient's satisfaction**
 - Less recovery time & pain

Solution

Hydroxell

(Cross Linked HA)

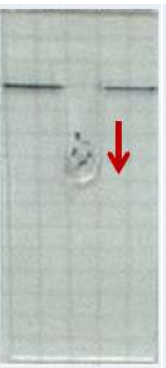

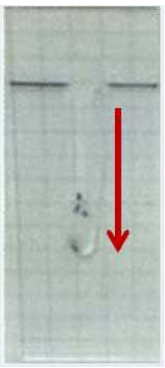

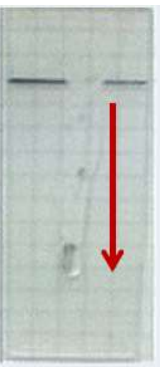

- Hyaluronic acid that is injected to dermis to improve wrinkles
- Effectiveness and safety is proved by clinical test
- Cross-linked HA provides longer lasting effect and safety when injected and very effective for wrinkle improvement.
- No preservatives/ Sterilized

[Indications] saggy skin, Wrinkled skin

[Main Ingredients] Hyaluronic Acid (Cross-Linked HA 15%)

Solution Hydroxell (Cross Linked HA)
